RE: Letter of Recommendation

Dear Alberto,

Craig A. Smith and Associates (CAS) have successfully worked on various civil-architectural projects with Icon Design, Inc. We really enjoyed the opportunity working with you and your firm.

Our last project involved the design and construction of a 9,000 square foot municipal office building complex for the Hardee County Utilities Department. Icon design was responsible for the design of the building and the coordination with the landscape architects to create a beautiful 8 acre county utilities headquarters complex. The project was successfully completed and resulted in a self sustaining utilities complex complete with laboratories, kitchen, offices, conference rooms, an emergency generator, and covered parking garages.

Prior to this project CAS worked with Icon design Group, Inc. on the design of an 8,200 square foot office - utilities complex including office area ,living quarters, laboratory, conference rooms, kitchen, water treatment equipment area , an emergency generator, a chemical room and an electrical controls room for the Miccosukee Tribe Of Florida. The self sustaining hurricane proof building was designed for the Tribe as a bunker where they can operate and manage their water treatment plant and distribution system with out having to leave the building during a storm event.

It was a pleasure working with you and your firm on these projects and look forward on continuing working together on future projects.

Sincerely,

CRAIG A. SMITH & ASSOCIATES
