TO WHOM IT MAY CONCERN:

It is our pleasure to lend our support and recommend Alberto Ramudo R.A., from the Icon Design Group to work with the federal government.

Two years ago, we decided to remodel our home. Before making our decision, we hired two architects to draw plans for us in accordance to our dream for our home. We finally chose Alberto because he heard our ideas, and translated those to the designing board flawlessly and for a reasonable price in comparison to the other architect, even though his remodeling project plan was more extensive and involved a lot more changes than the other architect's plans.

Because we had also seen Alberto's work and design in other projects and due to our busy schedule, we hired Alberto to administer the project and handle the project on our behalf. We could not have made a better choice. We are right now in the middle of building our dream home. Because we live in a planned community, we were limited in the changes to the exterior of the house. Alberto has complied with the Covenants of our community and has been able to give us what we needed within the constraints imposed by the Home Owners Association and the rules.

We have been very impressed with Alberto's architectural skills, the breadth of his knowledge, his design input, his communication skills and his administration and overview of the project. The overall design was detailed. The exterior features and interior redistribution of the existing space was excellent and the overall architectural features of our home, both outside and inside will definitely increase the marketability of our home in the future.

We cannot thank Alberto enough for listening to us, for his professionalism and listening skills and for his invaluable advice and guidance and fiscal responsibility. Feel free to contact us, we will gladly provide pictures of the "before" and "after" of our remodeling project. Words cannot express all our gratitude and the depth of our appreciation for his work and team work ethics.

Sincerely,

Roger S. Gorman, M.D.

Lissette Martinez-Gorman, Esq.
