

November 18, 2011

Sir/Madame:

RLC Development, LLC employed the services of Icon Design Group to serve as the construction manager for our 5,600 square foot office building. Icon principal Alberto Ramudo RA personally supervised all aspects of the construction, and we were very pleased with his dedication and attention to detail, which resulted in a beautiful finished product.

The writer has known Mr. Ramudo since 1986, when they worked together in an architectural practice. He is a uniquely qualified professional, being licensed in both Architecture and General contracting, and is committed to excellence in every project he undertakes.

Similarly, we have worked with Patricia F. Ramudo PE over many years and she is a consummate professional and we also highly recommend her. Our architectural firm has collaborated with her on several commercial projects and we have always been impressed with her engineering skills as well as her commitment to meeting project schedules and working collaboratively with the design team.

We highly commend Icon Design Group and principals Alberto and Patricia Ramudo and recommend them to you without reservation.

Sincerely,
RLC Architects

Bruce W. Retzsch AIA
President
